

PARTNERSHIPS FOR LEGAL FIRMS

Help clients with payments and earn referral income. PayStar's catalogue covers over 5,000 payment methods across markets.

FROM PSP VOLUME

We agree the rate, calculation basis and payments separately for the selected solution.

15% OF PAYSTAR REVENUE

Of revenue actually received under the referred client's contract. For 24 months from the client contract signature.

FOUR REASONS TO WORK TOGETHER

01 THE CLIENT IS APPLYING FOR A LICENCE

We shortlist payment solutions for the client's licence and markets. We agree your PSP volume reward separately.

02 THE CLIENT IS READY TO CONNECT

Recommend PayStar as a single point for quickly connecting payment providers and managing payments. Earn a percentage on paid PayStar services.

03 RECONNECT WITH FORMER CLIENTS

New markets, methods or backup providers are a reason to offer additional solutions and earn referral income.

04 THE LEAD DECLINED YOUR SERVICES

No problem. Recommend PayStar to help them find payment solutions and earn referral rewards.

GETTING STARTED

Agree the model and confirm attribution of a new-to-PayStar client in writing before the introduction. Introduce them with consent. PSP rewards and the PayStar programme are separate arrangements; rewards do not automatically combine. Merchant volume and PSP revenue are excluded from the 15% basis.

The agreement sets payment terms and timing. Connections depend on PSP requirements and client status. Free provider selection and the introduction alone do not generate a reward.

LET'S START SIMPLE.

Tell us about one client request - we will suggest ways to address it.
